Summary

Full Stack Web Developer with a passion for creative design and continuous learning. Skilled in developing user-friendly, full-stack web applications. Known for problem-solving, adaptability, and mastering complex skills to overcome technical challenges. Seeking to leverage hands-on project experience and technical skills in an internship or entry-level position.

Technical Skills

- **Languages:** JavaScript, CSS3, HTML5, Python
 - **Frameworks & Libraries:** React.js, Node.js, Express.js, jQuery, Bootstrap, Tailwind CSS, ect.
 - **Databases:** MySQL, NoSQL, MongoDB, Sequelize
 - **Other Tools:** Git, REST API's, Vite, Apollo GraphQL, ESLint, Insomnia
-

Projects

Blockbuster2024

[GitHub](#) | [Live Demo](#)

Developed a full-stack application with a nostalgic Blockbuster theme, allowing users to save favorite books and movies searched.

- Led UI/UX design for using React-Bootstrap grid components
- Integrated a movie API for real-time data fetching and saving movie preferences.
- **Technologies:** JavaScript, HTML5, CSS3, Node.js, MongoDB, React.js, Express.js, Bootstrap, Vite, ESLint, Bcrypt

Weather Dashboard

[GitHub](#) | [Live Demo](#)

Built a weather dashboard application fetching real-time weather data and a 5-day forecast using an external weather API.

- Added dark/light mode for a customizable user experience.
- Focused on creating a responsive, intuitive design.
- **Technologies:** JavaScript, React.js, Bootstrap, CSS3, HTML5, Vite, External API's, ESLint

JavaScript Quiz

[GitHub](#) | [Live Demo](#)

Created an interactive quiz application with score tracking and MongoDB for storing global and local high-scores.

- Implemented a high-score leaderboard to track top 25 global high scores.
 - Built a responsive, engaging interface for users to test their knowledge.
 - **Technologies:** JavaScript, Node.js, MongoDB, Express.js, Bootstrap, Apollo GraphQL, React.js, Vite, ESLint
-
